## The International Collaborative Research Strategy for Alzheimer's Disease

- Is one of CIHR's Roadmap Signature Initiatives
- Covers Alzheimer's Disease and related neurodegenerative disorders
- Focuses on two complementary objectives
  - Strengthen the Canadian innovative and collaborative research efforts on neurodegenerative diseases
  - Support international leadership and the insertion of Canadian research in international collaboration
- Timely given the international context (NAPA, JPND, WHO)
- Is advised by a CIHR Inter-Institute Advisory Group
  - IA and INMHA IAB members

ENTENTE FRSQ-INSERM-IRSC SUR LA MALADIE D'ALZHEIMER

Le Fonds de la recherche en santé du Québec (FRSQ), l'Institut national de la santé et de la recherche médicale de la France (Inserm) et les Instituts de recherche en santé du Canada (IRSC) ont signé le 4 juillet 2008 une entente de collaboration pour accélérer la recherche sur la maladie d'Alzheimer. On retrouve à la première rangée : M. Thierry Damerval, directeur-général adjoint de l'Inserm, Mme Marielle Gascon-Barré, présidente-directrice générale par intérim du FRSQ et M. Alain Beaudet, président des IRSC. À la deuxième rangée, on retrouve M. François Fillon, premier ministre de la France et M. Jean Charest, premier ministre du Québec.

## Round 1:

### 2010–11 CIHR-National Science Foundation of China Teams

- Joint RFA focused on common interests: Early detection, treatment, Prevention of AD and related diseases, Animal models, Biomarkers and imaging, genetics/epigenetics, Drug development, Vascular disease and clinical studies
- Three projects funded

## Round 2:

- Re-launch to support an additional two grants in 2012-2013
  - Animal Models
  - Brain Imaging and Biomarkers
  - Drug Development
  - Vascular Dementia
  - Clinical Studies

ADNI-2 is a NIA-initiated international effort to standardize neuroimaging in ADRD, along with biological and clinical data

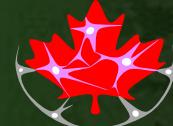

## Phase 1 - Integrating Canadian Centers in ADNI-2

- Supporting 5 Canadian Centers in North-American ADNI-2
  - 300 000 \$ per year for 5 years to 5 Canadian ADNI Centers
  - CIHR participation in the ADNI-2 Executive Committee as well as the Private Partner Scientific Board
- **Phase 2 – Supporting collaborative research on ADNI Data**
  - First program internationally to support the use of ADNI data bases
  - Secondary analysis and methodological research
  - \$700 k/y over 5 years

## CCNA

### The Canadian Consortium on Neurodegeneration in Aging

#### The need for CCNA

To support an integrated strategically-oriented consortium on Alzheimer's and related disorders in order to

- Strengthen and synergize Canadian innovative and collaborative research to face the challenge
- Become the Canadian landing strip for international collaborations
- Reinforce the international positioning and the impact at the global level

## Canadian Dementia Knowledge Translation Network

- Education and Training
- Information, education and tools

<http://www.lifeandminds.ca/>

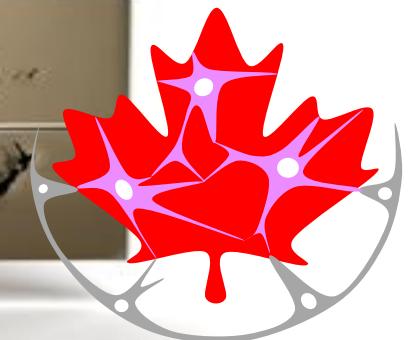

The screenshot shows the homepage of the Life and Minds website. At the top, there is a red navigation bar with links for LIFEANDMINDS.CA, MEDIA, RESEARCH, NEWS, EVENTS, and CONTACT. Below the navigation bar is a large circular logo for the Canadian Dementia Knowledge Translation Network (CDKTN), featuring a stylized maple leaf and the text "CDKTN Canadian Dementia Knowledge Translation Network". To the right of the logo is a photograph of an elderly woman with her hand to her forehead, looking distressed. The main content area has two columns. The left column contains an "ABOUT US" section and a "RECENT ARTICLES" section. The right column contains another "RECENT ARTICLES" section. The "ABOUT US" section describes Life and Minds as the web publication of the Canadian Dementia Knowledge Translation Network, established in 2008 through a CIHR grant. It highlights the network's focus on knowledge translation (KT) and exchange (KE) in Alzheimer's disease and dementia. The "RECENT ARTICLES" sections feature links to a member survey, a user survey, and a story about World Alzheimer's Day.
