INTERNATIONAL RESEARCH GRANT PROGRAM June 2025 PROGRAM ANNOUNCEMENT (January-August 2025)

The purpose of this Program Announcement for the June 2025 International Research Grant Program (IRGP) is to help applicants understand the context and history of the Alzheimer's Association International Research Grant Program and to publicize high-priority areas of focus. However, applicants should not consider areas of focus restrictive—projects exploring other topics are actively encouraged, even if they fall outside the areas discussed below.

I. BACKGROUND: ASSOCIATION MISSION AND SCIENTIFIC AGENDA

The Alzheimer's Association was founded in 1980 by a small group of family members caring for loved ones with Alzheimer's disease. These individuals united in disappointment with the quality of information available to them and in dissatisfaction with the lack of medical and social awareness of this devastating condition. Two years after its founding, the fledgling organization funded its first research grant, awarding a total of about \$80,000 to a handful of investigators. Since then, the Association has grown into the largest nonprofit funder of Alzheimer's research. Today, the Alzheimer's Association leads the way to end Alzheimer's and related dementia— by accelerating global research, driving risk reduction and early detection, and maximizing quality care and support.

As the world's leading nonprofit funder of Alzheimer's and all other dementia research, the Association is currently investing over \$430 million, over 1100 research projects in 56 countries. The Association supplements its own funding efforts with public policy initiatives directed toward increasing Alzheimer's and related dementia research funding at the federal level. The Association's International Research Grant Program has served historically as an incubator for novel ideas, complementing the programs of the National Institute on Aging and the other institutes of the National Institutes of Health as well as other organizations and federal agencies around the world. As our funding initiatives have grown and matured, grant categories have expanded to support researchers at every stage in their careers. Funded projects now explore the broadest possible spectrum of biological approaches to understanding, preventing and treating Alzheimer's and all other dementia; social and behavioral strategies for ameliorating the effects of dementia on individuals and their families and professional caregivers; clinical studies; and adaptive technologies.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

II. KEY DATES, PROGRAM SUMMARY, GENERAL INFORMATION

Letter of Intent Launch	January 15, 2025
Letter of Intent Deadline*	February 27, 2025 5:00 PM EST
Letter of Intent Notifications	Week of March 31, 2025
Application Deadline*	May 1, 2025 5:00 PM EST
Application Review	May - August, 2025
Award Notifications	Prior to August 30, 2025

*The Letter of Intent and Application must be received by 5:00 PM EST on their respective deadlines. Late submissions will not be accepted – *no exceptions*.

Grant Competition	AARG	AARG-Diversity	AARF*	AARF-Diversity*	AACSF*	AACSF-Diversity*
Maximum per year:	\$70,000	\$70,000	\$70,000	\$70,000	\$100,000	\$100,000
Maximum per award:	\$200,000	\$200,000	\$200,000*	\$200,000*	\$250,000*	\$250,000*
Duration:	2-3 years	2-3 years	2-3 years	2-3 years	2-3 years	2-3 years

*Fellowship awards (AARF, AARF-D, AACSF, AACSF-D) also include two \$10,000 research stipends, one for the Fellow and one for the Primary Mentor, totaling \$20,000. These research stipends are not guaranteed and are awarded only upon successful conclusion of the award and accomplishing the Fellowship Benchmarks. These stipends (\$20,000 total) are not to be factored into the billable budget grant total (AARF: max \$180,000/max \$70,000 yr and AACSF: max \$230,000 max/\$100,000yr); they are to be used for on-going research-professional-related purposes after completion of the grant.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

All 2025 Alzheimer's Association International Research Grant Programs share Section I (Background), Section II (Areas of Focus), Section III (Key dates & Scientific Categories), and Section IV (General Considerations), of this program announcement, as each of these sections provides information that is common across all programs. Section V (Specific Grant Programs) provides additional information that is unique to each individual competition, including: program objectives, funding and award period, eligibility, receipt and award dates, mechanism of award, reporting requirements and allowable costs.

A. SCIENTIFIC CATEGORIES OF PROPOSALS

Each proposal must be submitted to a specific grant competition. Additionally, proposals must be classified according to the four broad categories of scientific inquiry listed below, along with sample areas of topic within each. The Association recognizes that multiple categories may describe your project; however, we ask that you select the most applicable categorization.

1. Social and behavioral research

Research in diverse populations; assessment of novel approaches to care and support diagnosed individuals and caregivers; special needs of early-stage and early-onset individuals; analysis of the impact of the physical and social environment; evaluation of services and interventions; quality of life; ethical issues; recruitment science; natural language processing and behavioral monitoring for early detection; and health policy.

2. Clinical investigations

Projects in which the majority of data is derived directly from studies involving active participation of human subjects. Examples include pilot studies of new therapies; neuropsychological testing; drug administration; biomarker collection; imaging technology; and risk factors including genetics, cardiovascular issues, diabetes and metabolic factors, lifestyle issues, and emerging technologies such as mobile computing, high-bandwidth sensing, "smart" environments, and robotics. *In vitro* projects conducted in human samples should be categorized as basic biology (the category below) rather than clinical investigations. Projects directed toward fundamental understanding, but meeting the criteria above should still be classified as Clinical Investigations.

3. Basic biology

These are bench science projects involving *in vitro* or animal work pertaining to the causes of dementia; early and accurate detection and diagnosis; animal models; treatments; and prevention. Please note that *in vitro* work involving human samples falls into this category.

4. Cognitive/ functional

Research focusing on identification of cognitive/functional profiles, development of better measures for diagnosis, identification of neural/biological correlates of cognition/function, investigation of how cognitive and functional changes impact on medical, legal, and day-to-day issues; and the use of the cognitive neuroscience

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

approach to better understand and characterize cognitive/functional changes.

5. Computational, Secondary, and Existing Human Data Analyses

Projects in this area will include “big data” datasets, electronic health records, imaging, postmortem, or other pathology samples, and all other already-collected data or samples for use in novel analytic plans. Also included are any use of machine learning, large language models, or other Artificial Intelligence (AI). This could also include secondary data analysis and other similar types of approaches to answering questions.

B. ELIGIBILITY AND INELIGIBILITY REQUIREMENTS

To avoid disqualification, investigators are encouraged to carefully consider these eligibility and ineligibility requirements before applying. The Alzheimer’s Association reserves the right to find an investigator ineligible to submit for a particular program, based on the guidelines below. This section describes general inclusion and exclusion criteria. Specific requirements and additional exclusions to eligibility are noted in some detailed competition descriptions.

i. Eligibility

- In general, public, private, research laboratories, medical centers, hospitals and universities are eligible to apply. State and federal government-appropriated laboratories in the U.S. and abroad and for-profit organizations are prohibited from serving as the applicant institution. However, state and federal government scientists can participate as collaborating scientists with research teams from other eligible applicant institutions.
- For the Letter of Intent (LOI), you will be required to upload proof of your organization’s not-for-profit status. *An IRS Letter of Determination is no longer accepted* and you **must** submit either of the following:
 - a W-9 that is signed and dated within the past five years by the signing official for US entities
 - a W-8 or W-8-BEN that is signed and dated within the past five years by the signing official.
 - each must include the EIN, TIN or VAT number.
- For non-profit organizations (non-academic), additional documentation may be required to confirm your organization has segregation of duties between transaction execution and transaction recording.
- **The Alzheimer’s Association recognizes the need to increase the number of scientists from underrepresented groups in the research enterprise. Researchers from these groups are encouraged to apply.**
- Alzheimer’s Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer’s Association is subject to, and complies with, U.S. law. As a result, the Alzheimer’s Association

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer’s Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

ii. Ineligibility

- **Overlapping funding** of more than one Alzheimer's Association grant **is not allowed**. Investigators who currently have an active AACSF/D, AARF/D, AARG/D, or AARG-NTF/D award may apply for another award in the last year of their grant if that last year concludes by 6 months of the award announcement. Investigators with Association awards in programs not listed above may still apply to a program listed in this call, but the project must be distinct from their current award.
- Applications that represent the same aspects of a project should not be submitted to different programs of the Alzheimer's Association
 - There are some exceptions so please contact grantsapp@alz.org if you have questions regarding your eligibility.
- **Investigators delinquent in reporting**. The Alzheimer's Association will not accept new grant applications from investigators currently awarded an Association grant who are delinquent in submitting required reports and other deliverables on active grants. Investigators that have previous Alzheimer's Association awards closed as 'Incomplete' are not eligible to apply without exception. **This policy will be strictly adhered to with no exceptions.**
- **Current members of the Association's [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council](#) and [Alzheimer's Association staff members](#)** are ineligible to:
 - compete for any research grant
 - be included as co-investigator or to receive any financial benefit from an application. These individuals may be listed as key personnel/collaborators to an application and will be recused from participating in their peer-review.

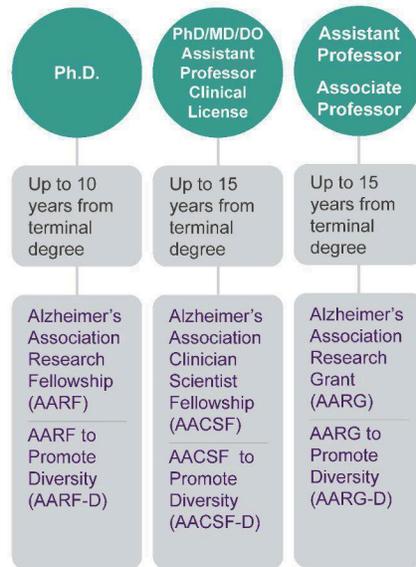

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

C. ELIGIBILITY SUMMARY

Alzheimer's Association International Research Grants Program

All programs are open globally
more information:
alz.org/grants

*Additional eligibility criteria apply to this

***Note: Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.**

D. NONDISCRIMINATION AND HARASSMENT STATEMENT

The Alzheimer's Association is committed to providing an environment free from harassment and discrimination. Alzheimer's Association strictly prohibits harassment and discrimination based on race; creed; color; religion; sex; sexual orientation; national origin; ancestry; age; veteran status; citizenship status; marital status; physical or mental disabilities; pregnancy, gender identity or expression (including transgender status); genetic information; and any other characteristic protected by federal, state or local law.

E. LETTER OF INTENT PROCEDURES

i. Letter of Intent: General Information

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- One Letter of Intent per cycle of application is allowed
- The first step in applying to the Alzheimer's Association for any research grant is to create and submit a Letter of Intent (LOI) through the online application system at <http://proposalcentral.com>
- First-time users must register and fill out a Professional Profile to begin the LOI/application process and must be submitted by a single Principal Investigator (PI)
- Applicants must submit an LOI for the current active cycle that they are interested in
- An LOI submitted on behalf of another applicant or by an administrator will be rejected
- Hard copies or emails of the LOI will not be accepted.
- The applicant is responsible for adhering to the space limitations (described below) and any decision regarding moving an LOI forward will be evaluated based on the submitted information.
- The Alzheimer's Association requires that all applicants be registered as a reviewer with the Association in order to submit a Letter of Intent. If you submit a Letter of Intent/application and are NOT currently registered as a reviewer, you will be automatically added to the Alzheimer's Association reviewer roster.

NOTE: AS A REQUIREMENT TO SUBMITTING AN LOI/APPLICATION, YOU AGREE TO REVIEW AT LEAST ONE GRANT PROPOSAL WITHIN YOUR AREA OF EXPERTISE IN ONE OF THE OTHER GRANTING MECHANISMS OUTSIDE OF THE SPECIFIC GRANT PROGRAM TO WHICH YOU ARE APPLYING.

AN APPLICANT CANNOT SUBMIT AN LOI TO MORE THAN ONE PROGRAM WITHIN THIS PROGRAM ANNOUNCEMENTS, EVEN IF THE PROJECTS ARE DIFFERENT. APPLICANTS SHOULD APPLY TO ONLY ONE PROGRAM.

- **LOIs will not be accepted after the deadline date; no exceptions will be made.**

ii. Letter of Intent: Contents

Applicants must complete the required sections and upload any required documents. Some of these required fields are described below:

- **Principal Investigator**
 - Name & contact information
- **Lead Institution**
 - Applicant must be a full-time employee at time of submission
 - Institution/organization name must be in English
- **Current academic rank/position**
 - Must be current at the time of submission; *pending promotions are not allowed*
- **Proposal title**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- **Area of focus**
 - Specific options will be available from a dropdown menu
- **Brief project description**
 - Methodology
 - Specific aims of the project
 - Innovation/novelty of the project
 - Impact on Alzheimer's and related dementia field are required.

NOTE: EACH SECTION IS LIMITED TO 1,000 CHARACTERS, INCLUDING SPACES

- **Employer Identification Number (EIN) or TIN**
 - This number must match the non-profit documentation

NOTE: THIS IS INFORMATION SPECIFIC TO THE INSTITUTION NOT THE APPLICANT.

- **ORCID ID**
- **Non-profit verification**
 - W-9 (US entities) signed and dated within the past five years by an authorized institutional signing official and must include the EIN number
 - W-8-BEN (non-US entities) signed and dated within the past five years by an authorized institutional signing official and must include the EIN/TIN or VAT number

NOTE: THIS DOCUMENT SHOULD NOT CONTAIN THE APPLICANT'S INFORMATION.

- **Biosketch**
 - For Principal Investigator only (with the exception of the Fellowship program, Mentor bio should be included)
 - We highly recommend using the latest NIH biosketch format (excluding Section D. Scholastic Performance), but any format will be accepted. Hyperlinks are allowed in the biosketch only for individual research projects.
 - Applicants will be able to provide Biosketches for other members of the project team at the full application stage.

Any additional documents, including budget details, letters of support or recommendation, and additional biosketches, are not allowed at this early LOI stage and will be removed.

iii. Specific for the Promote Diversity Programs (AARG-D, AARF-D and AACSF-D)

Diversity Self Statement (1 paragraph max) outlining the applicant's status and eligibility for this program. Additional details regarding what may be defined as underrepresented, please refer to section of iii - Eligibility, of each specific program. This is from the applicant only and does not need to be signed by the institutional representation. This statement will only be accessible to the applicant and the Alzheimer's Association through their ProposalCentral

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

Account (if the applicant gives others access to the LOI, they will be able to view all attachments). The self-statement will be validated by the Alzheimer's Association and removed from the LOI portion. The self-statement will not be included in the information shared with reviewers and will only be used to confirm eligibility to this program.

iv. Letter of Intent: Evaluation

Each LOI is evaluated by the Alzheimer's Association and a select panel of experts to decide whether to triage or invite to submit a full proposal, with special attention given to:

- Demonstrable innovation/novelty of the proposed project (especially in the context of the PI's recently funded work)
- Alignment with the research priorities of the Alzheimer's Association
- Impact of project on Alzheimer's and related dementia
- Evidence of methodological rigor that address the research question(s) being proposed

Due to the high volume of submitted LOIs, specific feedback and reviewer comments are not provided at the LOI stage.

F. APPLICATION PROCEDURES

i. Application: General Information

If you are invited to submit a full application, the required materials including the application format, templates, and instructions, will be available online at proposalCENTRAL after your LOI has been approved in the system.

- Full applications will not be accepted without an approved LOI from the current cycle
 - If you did not receive an email from an Alzheimer's Association staff member about your approval to submit a full application for the current cycle you should not submit an application, even if one is available in your ProposalCentral Account.
- The full application should not be different than the approved LOI, including title and area of focus
- The PI who submits the application must be the same PI who submitted the approved LOI
- The application does not need to be completed in one session; a partially completed application can be saved and completed at any time before the deadline.
- It is imperative that you proofread your application before submission; you will not be allowed to make any changes to the application after the deadline or once applications are under review.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- The application is submitted by the receipt date/time deadline. Once submitted, you will receive a confirmation e-mail from proposalCENTRAL that your application was successfully submitted. If you do not receive a confirmation, click the **Proposals** tab and under the “**Status**” column make sure it says **Submitted** and not **In Progress** which indicates you have not yet submitted your application.
- The application is complete and accurate before submission. Only a single copy of an application will be accepted. **Signatures are not required at the time of submission**, the signature page provided is for use should your institution/organization require signatures; we do not override any institutional policies and/or procedures. Please do not submit the signature page with your application.

ii. Application: Contents

Applicants must complete the required sections and upload required documents as listed. Some fields are identical to the LOI. Some of these required fields are described below:

- **Resubmission**
 - It is up to the investigator whether or not they wish to declare their application a resubmission. Even if you are submitting a similar application to a prior submission you do not need to declare it a resubmission. Resubmissions are granted a one-page summary addressing comments raised by reviewers in a prior review cycle(s).
- **Principal Investigator, Co-Principal Investigator, and Key Personnel % Effort**
 - All % Efforts listed on the application should reflect RESEARCH EFFORT rather than effort as a percentage of salary or % effort to this specific project. It is not required that Co-PI's and Key Personnel accept salary from an Award, but should have some effort listed.
- **Institution & Contacts**
 - The PI or a first degree relative cannot be listed as the signing official, financial officer or send checks to attention of.
- **How the Research Addresses Gaps in knowledge**
 - Investigators should describe how their research will impact the advancement of diverse science and in addressing the gap on sex and gender, disability, and racial disparities in AD/ARD research. This may include, but not limited to, aspects specific to the research project, the samples or to the team conducting the research
- **Budget**
 - AARF, AARF-D, AACSF, and AACSF-D applications should include the \$20,000 stipends in year 4 of Section 8. **NO OTHER EXPENDITURES SHOULD BE INCLUDED IN YEAR 4.** Your application will not be accepted if it includes more than \$20,000 in year 4, or does not include the stipends in Section 8 at all. 10% Indirect costs are allowed for the stipend, the final amount for year 4 should be direct costs plus indirect costs equal \$20,000.00. No Financial report is required for the stipend, however these funds must be used towards professional

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

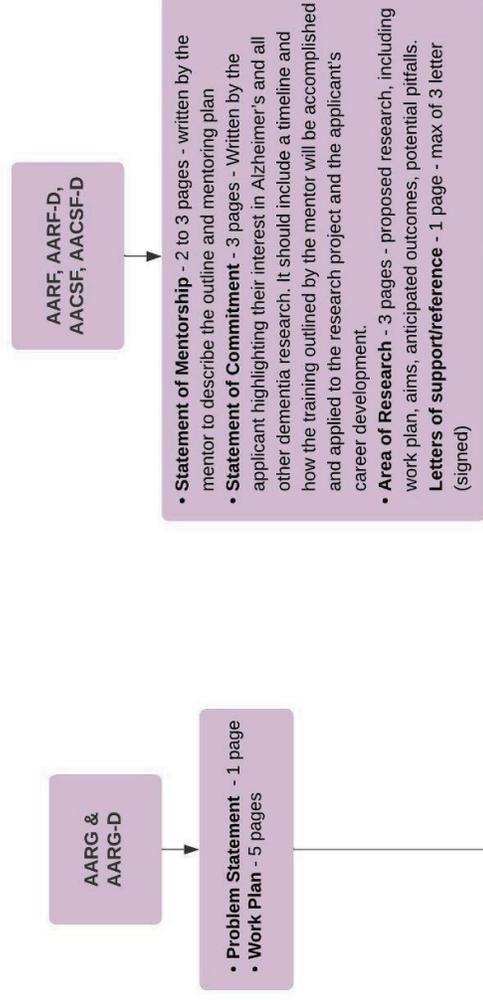

development, manuscript fees, conference attendances and other research related expenses.

- Facilities and Administration Costs (Indirect Costs) should not exceed 10% of the PERIOD DIRECT COSTS. You may NOT claim more than 10% in one period and then less than 10% in another. Indirect costs should be based on the period direct cost budget, not the total budget of the award.
- Investigators are not required to have cost share.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- **Attachments**

For all programs - AARG, AARG-D, AARF, AARF-D, AACSF & AACSF-D

1. Available Resources & Budget Justification - 2 pages
 2. Biosketch(es) – 5 pages each - Principal Investigator, Co-PI(s), Key Personnel (note: for fellowship programs the PI is the applicant/fellow and the mentor is the co-PI and biosketches for both must be included)
 3. Data Management and Sharing Plan - 3 pages
 4. Recruitment Plan (only for projects using human participants) - 1 page
 5. References - 1 page - no required reference style. The reference list can be included in the work plan or separately.
 6. Resubmission Statement - 1 page - Resubmissions have the opportunity to provide a one-page summary addressing comments raised by reviewers in a prior review cycle(s)
- Non-profit verification**
- W-9 (US entities) signed and dated by an authorized institutional signing official that must include the EIN number
 - W-8-BEN (non-US entities) signed and dated by an authorized institutional signing official that must include the EIN/TIN or VAT number

Please note that documents must not exceed the maximum page limit allowed for each section. Any additional materials that are not specified for a specific program (letters of collaboration/support, manuscripts, appendices, etc...) ARE NOT allowed and will be removed.

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)
Please send all inquiries to grantsapp@alz.org

iii. Application: Evaluation

Applications will be reviewed by the Alzheimer's Association and a select panel of experts with criteria tailored to each of the programs. Please see Section IV for additional information regarding evaluation of applications within a specific program.

iv. Application: Additional Information

It is the responsibility of the applicant to ensure and verify that:

- **The application is submitted by the receipt date/time deadline.**

Once submitted, you will receive a confirmation email from proposalCENTRAL that your application was successfully submitted. If you do not receive a confirmation, click the Proposals tab and under the “status” column make sure it says Submitted and not *in progress*, which indicates you have **not** submitted your application.

- **The application is complete and accurate before submission.**

Only a single copy of an application will be accepted. Signatures are not required at the time of submission, the signature page provided is for your use should your institution/organization require signatures, and we do not override any institutional policies and/or procedures. **Please do not submit with your application.**

- **Applicants may use LLMs and other generative AI tools in the preparation of their LOIs and full applications.**

Applicants are fully responsible for the content of their proposal, even those parts produced by an AI tool. Using one of these tools will not affect the review of your application.

G. MULTIPLE AND OVERLAPPING SUBMISSIONS

Applicants *CANNOT* submit more than one proposal to any of the programs in the current grant competition—even if the proposals cover distinctly different topics (i.e. only one application is allowed regardless of the distinct areas of focus). It is allowed for members of the same team to submit different aspects of a project to different programs. As long as complementary and not the same project.

Applicants may revise and resubmit an application that was previously submitted for an earlier grant cycle; however, a **new** LOI is required each year. A current LOI corresponding to the application year must accompany each application. **Revisions of previous submissions will be treated as new applications. Efforts will be made to provide some continuity in reviews. A resubmission of an approved LOI *does not* guarantee that you will be invited to resubmit a full application in a future cycle. Resubmissions may be submitted to a different program in this call and still be a resubmission** (example - AARF-D one cycle and resubmission AARF, it can't be different

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

funding programs, such as from AARF to AARG, for example).

- o Resubmissions are reviewed holistically again, and merely responding to reviewer critiques is not enough to be funded on resubmission.

H. REVIEW PROCEDURES

All applications are subject to a multiple stage peer-review process carried out with an online system. In the first stage, applications are reviewed and rated by peer scientists with expertise in the proposed area of research. Applicants may include recommended reviewers and also have the option to exclude specific reviewers from evaluating their application if a conflict of interest exists. Conflicts of interest include (but are not limited to):

1. The Applicant trained with/ by the reviewer.
2. Reviewer published with the Applicant in the last four (4) years. This excludes workshop or large consortia (i.e. ADNI, IGAP, etc.)
3. Reviewer has been a co-investigator on a grant application or award with the Applicant in the last four (4) years.
4. Reviewer has a conceptual difference of opinion with the Applicant that will prevent a fair review.
5. Reviewer will receive financial benefit from the Applicant receiving an award.

The second stage includes further review and discussion of the scores and comments resulting from the initial review process. This second review is carried out by the International Research Grant Program (IRGP) Council and invited review committee members to ensure fairness and equity in the initial review procedures and to make funding recommendations to the Association. Final recommendations from the IRGP Council are shared with the Medical and Scientific Advisory Group (MSAG) and with the Alzheimer's Association for final approval. Members of the IRGP Council and MSAG are internationally recognized experts with distinguished careers in Alzheimer's and related dementia.

This multi-stage process is central to our award decisions and is designed to ensure both scientific rigor and fairness in the review of all submitted applications.

General Reviewer Requirements

- Recognized authority in their respective field.
- Dedicated to conducting high-quality, fair reviews.
- Able to articulate views succinctly while being willing to engage in productive exchanges and active participation in the online discussion of applications.

I. APPEALS OF SCIENTIFIC PEER REVIEW

To maintain a fair and rigorous review system, the Alzheimer's Association has established

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

a process for appeal of funding decisions. An appeal is intended to address extraordinary circumstances. Appropriate reasons for initiating an appeal might include:

- Evidence that a reviewer has an undeclared conflict of interest
- An egregious error or misunderstanding in the review process
- Active malfeasance or demonstrable lack of due diligence

The appeal process is not intended to provide a mechanism for routine protest of failure to receive a grant. Disparities in peer reviewers' enthusiasm for a proposal and the scores they assign are nearly always considered part of the normal variation in human judgment. The reality is that the Alzheimer's Association International Research Grant Program is extremely competitive and is limited by availability of funds. In recent grant cycles, 20 to 30 percent of full applications have been awarded grants, although about twice that number fall into the "fundable" category based on overall score.

If an applicant believes an extraordinary circumstance has contributed to failure to receive funding, the principal investigator may send a two-page, double-spaced formal letter of appeal (Word document) to grantsappeals@alz.org. Any supporting documents included must be submitted as a PDF. **Appeals must be submitted within two weeks from the date your application outcome notification is sent.** Notification of action on the appeal will be made via email, usually within 90 days of the appeal deadline.

Appeals for Letter of Intent are not allowed, only full applications.

J. ETHICAL/REGULATORY ASSURANCES

Animal welfare and human subject assurances are not required at the time of application. Investigators have until their chosen start date to submit these documents provided the start date is within 6 months from award notification. **However, the Alzheimer's Association encourages investigators to initiate their certification applications on a schedule that recognizes that rDNA certification, IRB/IACUC approval at many institutions can take more than 90 days.** The Association accepts only certifications that apply specifically to the funded project and must include the name of the awardee. For AARF/D and AACSF/D, if the Ethical certification is on the mentor's name, the Fellow must include the Ethical approval and a signed letter stating that the ethical approval (rDNA certification, IRB/IACUC approval) covers the awarded project with the Fellows name and Award number included.

K. REPORTING REQUIREMENTS

i. Annual Scientific and Financial Reports

Interim Scientific & Financial Reports must be submitted at the end of each reporting period as long as the grant remains active. Final Scientific & Financial Reports must be filed within 90 days of the grant's end date. All reports must be submitted electronically via proposalCENTRAL. The Financial Report must be approved and signed by someone

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

with financial authority in the Office of Research and Sponsored Programs or Grants & Contracts Office at the recipient's institution. Unobligated funds remaining at the end of the award must be returned to the Alzheimer's Association.

NOTE: FELLOWSHIP AWARDS (AARF, AARF-D, AACSF, AACSF-D) ALSO HAVE ANNUAL MENTOR EVALUATIONS THAT ARE CONSIDERED PART OF THE ANNUAL PROGRESS REPORTS.

ii. Recruitment Efforts for Clinical Studies

Projects involving human participants must address the appropriate inclusion or exclusion of individuals in the proposed research project and describe recruitment efforts to represent the community in which the study is planned or being conducted. Prior to distribution of funding, the researcher must provide a description of their recruitment plan, including an outline describing how their recruitment efforts will ensure representative diversity in their participants. Recruitment efforts should focus on diversity within key target groups, including a diverse representation of (but not limited to): sex, gender identity, sexual orientation, socioeconomic status, race, and ethnicity. This will be tracked throughout the duration of the grant. The Alzheimer's Association will withhold payments on awards that do not achieve diverse recruitment during any period of the award.

iii. Publications, Presentations and Abstracts, and Intellectual Property Disclosures

Electronic copies of publications, presentations and abstracts that report research supported by funds from the Alzheimer's Association must be submitted electronically at the time of publication. These copies will become part of the official file of the grant and will be provided to the Communications Division of the Alzheimer's Association to assist in the efforts to further inform the public about the International Research Grant Program of the Association. Any intellectual property disclosures resulting from the award must be submitted electronically at the time of publication. The Alzheimer's Association may request any of the research outputs listed here from any awardee up to 7 years following the end of the award.

III. SPECIFIC GRANT COMPETITIONS

a. alzheimer's association research grant (aarg) program

i. Competition objectives

The Alzheimer's Association Research Grant (AARG) award aims to fund early-career investigators who are less than **15 years** past their doctoral degree or post-residency (MD or DO).

The purpose of this program is to provide newly independent investigators with funding that will allow them to develop preliminary or pilot data, to test procedures and to develop

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

hypotheses. **The intent is to support early-career development that will lay the groundwork for future research grant applications to federal or other funding entities.**

The mechanism of this award is the individual research grant. The Alzheimer's Association recognizes the need to increase the number of scientists from underrepresented groups in the research enterprise for Alzheimer's and related dementia. Young scientists from these groups are encouraged to apply.

ii. Funding and award period

Each **AARG** award total is limited to \$200,000 (direct and indirect costs) for up to three years (**Awards should be a minimum 2 years. For a 2 year award the total is limited to \$140,000 with direct and indirect costs**). Requests may not exceed \$70,000 in any given year (direct and indirect costs). Indirect costs are **capped at 10 percent** of total direct costs and are inclusive of indirect costs for the implementing institution as well as to any subcontracts.

iii. Eligibility

Applicants must be an Assistant Professor or Associate Professor at their respective academic institution **and** less than **15 years** past their doctoral degree or post-residency (MD or DO).

- The 15-year period applies to the date of submission of the grant application. Adjustments for career interruptions can be made for events such as: family leave, military service, and major illness or injury. **It is the responsibility of the applicant to point out and document such interruptions within their application.**
- The Alzheimer's Association will make exceptions to the terminal degree requirement when the individual applicant has a full-time faculty position of Assistant Professor (or equivalent) or Associate Professor and is expert in the area of public health, social work, neuropsychology, legal, bioethics or a related area of psychosocial research
- Only one primary PI per application. Multiple PI projects are not allowed.
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

APPLICANTS MUST CONTACT THE ALZHEIMER'S ASSOCIATION AT GRANTSAPP@ALZ.ORG TO VERIFY ELIGIBILITY IF THEY DO NOT HAVE AN ASSISTANT PROFESSOR TITLE AND INQUIRE REGARDING ANY POSSIBLE EXCEPTION PRIOR TO SUBMITTING AN LOI.

NO EXCEPTIONS WILL BE MADE AFTER THE LOI DEADLINE HAS PASSED.

iv. Ineligibility

- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria.

v. Deadlines and Award Dates

- **Letter of Intent deadline: February 27, 2025 5:00 PM EST**

Each AARG LOI is evaluated with attention to:

- Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)
- Alignment with the research priorities of the Alzheimer's Association
- Impact of project on Alzheimer's and all other dementia research
- Evidence of methodological rigor that address the research question(s) being proposed

- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

- **Application deadline: May 1, 2025 5:00 PM EST**

If invited to submit a full application, each AARG application is evaluated on:

- Significance of the question being studied
- Applicant information – including the training of the PI insofar as it enables them to perform the work proposed, qualifications of the collaborators, and the expertise they bring to the project
- Quality of the work plan – including novelty and innovation of the proposed project; additionally, projects that involve humans subjects will be evaluated on planned recruitment efforts
- Quality and adequacy of available resources and budget
- Impact-Risk of the proposal and how it will add to the field's overall knowledge and advancement
- Impact on the advancement of diverse science
- Resubmissions will have the opportunity to provide a response to prior reviews

- **Award notifications: Prior to August 30, 2025**

vi. Budget

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

It is required that most of the funds awarded under this program be used for direct research support. **No more than 10% of the total direct costs may be included as indirect costs; this is inclusive of indirect costs for the implementing institution as well as any to subcontracts.** Allowable costs include:

- Purchase and care of laboratory animals
- Small pieces of laboratory equipment and laboratory supplies
- ***Purchases over \$10,000 require prior approval, even if included in the project proposal budget***
- Computer software if used strictly for data collection (***requires prior approval***)
- Salary for the principal investigator, scientific (including postdoctoral fellows) and technical staff (including laboratory technicians and administrative support directly related to the funded grant); there is no salary cap
- Membership to scientific association
- Professional development / communication training
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year.** If you request the full \$12,500 towards just two years of travel and are requesting a three year award you will not be able to request travel funds for one of those years.
- Training costs to visit and perform research related to the awarded project on another laboratory/facility (this is not to be included in the travel costs)
- **Participant travel expenses for projects involving human participants is not included in the travel and is allowable expenses that can be captured under other expenses (itemized) in the budget.**
- **As part of Alzheimer's Association ongoing efforts to develop programs that support family-friendly research environments, Alzheimer's Association awardees can request up to \$2,500 per budget period for childcare costs provided by a licensed childcare provider.**

b. Direct Costs not allowed under this award include:

- Computer hardware or standard software (e.g. Microsoft Office, mouse monitor, computer parts, AppleCare)
- Laboratory equipment such as freezers, ultracentrifuges, RT-PCR, Microscopy/imaging equipment
- Service contract fees of equipment

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Construction or renovation costs
- Tuition
- Rent for laboratory/office space
- Visa costs and fees
- Expenses such as Data Network Recharges and Computing and communication device support services. However, data sharing and/or data storage for imaging, sequencing and other study data is allowed.
- General liability insurances, such as GAEL
- Wire and currency exchange fees
- Institutional overheads associated with staff time
- The Alzheimer's Association [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council members](#) and current employees of the Alzheimer's Association are allowed to be key personnel or collaborators on projects, however they are NOT ALLOWED to receive any salary or compensation. A complete list of MSAG and IRGP Council members can be found on our website alz.org/grants
- We reserve the right to decline any charge that is an institutional feed and/or service charge.

vii. Reporting Requirements

Please see **Section III, J: Reporting Requirements** for additional details. This award requires:

- Annual scientific progress reports
- Annual financial reports
- Annual reports on recruitment & retention efforts (if applicable)

NOTE: THE CONTINUATION OF THE GRANT OVER THE AWARDED DURATION IS CONTINGENT UPON THE TIMELY RECEIPT OF ALL REQUIRED REPORTS.

viii. Contact Information

For any inquiries or additional information, please contact a member of the Alzheimer's Association Grants staff at grantsapp@alz.org.

B. ALZHEIMER'S ASSOCIATION RESEARCH GRANT TO PROMOTE DIVERSITY (AARG-D) PROGRAM

i. Competition objectives

The Alzheimer's Association Research Grant to Promote Diversity award is up to three years (minimum 2 years) to increase the number of scientists from underrepresented groups at academic institutions in Alzheimer's or related dementia research.

The objective of this award is to increase the number of highly trained investigators from diverse backgrounds whose basic, clinical and social/behavioral research interests are

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

grounded in the advanced methods and experimental approaches needed to solve problems related to Alzheimer's and related dementia in general and in health disparities populations. The Alzheimer's Association recognizes the need to increase the number of scientists from underrepresented groups participating in biomedical and behavioral research. The Association anticipates that by providing these research opportunities, the number of scientists from underrepresented groups entering and remaining in biomedical research careers in Alzheimer's and related dementia will increase.

The purpose of this program is to provide new scientists from underrepresented groups with funding that will allow them to develop preliminary or pilot data, to test procedures, and to develop hypotheses. The intent is to support early-career development that will lay the groundwork for future research grant applications to federal and other funding agencies.

The mechanism of this award is the individual research grant. The Alzheimer's Association recognizes the need to increase the number of scientists from underrepresented groups in the research enterprise for Alzheimer's and all other dementia. Young scientists from these groups are encouraged to apply.

ii. Funding and award period

Each **AARG-D** award total is limited to \$200,000 (direct and indirect costs) for up to three years (**Award should be a minimum 2 years. For a 2 year award the total is limited to \$140,000 with direct and indirect costs**). Requests may not exceed \$70,000 in any given year (direct and indirect costs). Indirect costs are **capped at 10 percent** of total direct costs and are inclusive of indirect costs for the implementing institution as well as to any subcontracts.

iii. Eligibility

Applicants must be an Assistant Professors or Associate Professor at their respective academic institution **and** less than **15 years** past their doctoral degree or post-residency (MD or DO).

- The 15-year period applies to the date of submission of the grant application. Adjustments for career interruptions can be made for events such as: family leave, military service, and major illness or injury. **It is the responsibility of the applicant to point out and document such interruptions within their application. Full Professors are ineligible.**
- The Alzheimer's Association will make exceptions to the terminal degree requirement when the individual applicant has a full-time faculty position of Assistant Professor (or equivalent) or Associate Professor and is expert in the area of public health, social work, neuropsychology, legal, bioethics or a related area of psychosocial research
- Only one primary PI per application. Multiple PI projects are not allowed.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- If the applicant's institution does not have an Assistant Professor position, the letter of employment should include sufficient information to allow the Alzheimer's Association staff to evaluate the eligibility of the applicant.
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

Specific for the AARG-D program, eligible applicants have the same requirements as the AARG program, but are an underrepresented faculty in biomedical and behavioral research on a national, international or institutional basis.

Applicants must submit a **Diversity Self Statement (1 paragraph max)** during the letter of intent stage outlining the applicant's status and eligibility for this program. Additional details regarding what may be defined as underrepresented include:

- Applicants from the United States will be subject to the definitions as stated by the National Institutes of Health: NIH-designated U.S health disparity populations include Blacks/ African Americans, Hispanics/ Latinos (for the Alzheimer's Association this does NOT include individuals from Spain; being from Spain alone does not make you eligible for this program), American Indians/ Alaska Natives, Asian Americans, Native Hawaiians and other Pacific Islanders, socioeconomically disadvantaged populations, underserved rural populations, persons with disabilities (defined by the Americans with Disabilities Act (ADA) as a person with a physical or mental impairment that substantially limits one or more major life activities), minoritized sexual and gender populations, and Individuals from [economically developing nations of Africa, Asia and Latin America and the Caribbean](#).
- In addition, applicants born in any of the economically developing nations of Africa, Asia, Latin America and the Caribbean are eligible granted that all other criteria regarding career stage are met. The Alzheimer's Association will not require proof of American citizenship or a Permanent Resident Status.
- In addition, applicants employed by a university that is located in an economically developing nation of Africa, Asia and Latin America, are eligible granted that all other criteria regarding career stage are met.

ANY QUESTIONS RELATED TO ELIGIBILITY, PLEASE CONTACT THE ALZHEIMER'S ASSOCIATION AT

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

GRANTSAPP@ALZ.ORG PRIOR TO SUBMITTING AN LOI. NO EXCEPTIONS WILL BE MADE AFTER THE LOI DEADLINE HAS PASSED. The Alzheimer's Association reserves the right to require additional documentation if necessary.

The self-statement will be validated by the Alzheimer's Association and removed from the LOI. The self-statement will not be included in the information shared with reviewers and will only be used by the Association staff to confirm eligibility to this program.

iv. Ineligibility

- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria.

v. Deadlines and Award Dates

Letter of Intent deadline: February 27, 2025 5:00 PM EST

Each AARG-D LOI is evaluated with attention to:

- Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)
- Alignment with the research priorities of the Alzheimer's Association
- Impact of project on Alzheimer's and related dementia research
- Evidence of methodological rigor that address the research question(s) being proposed

- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

- **Application deadline: May 1, 2025 5:00 PM EST**

If invited to submit a full application, each AARG-D application is evaluated on:

- Significance of the question being studied
- Applicant information – including the training of the PI insofar as it enables them to perform the work proposed, qualifications of the collaborators, and the expertise they bring to the project
- Quality of the work plan – including novelty and innovation of the proposed project; additionally, projects that involve humans subjects will be evaluated on planned recruitment efforts
- Impact on advancement of diverse science
- Quality and adequacy of available resources and budget
- Impact-Risk of the proposal and how it will add to the field's overall knowledge and advancement
- Resubmissions will have the opportunity to provide a response to prior review

- **Award notifications: Prior to August 30, 2025**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

vi. Budget

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

E. ALZHEIMER'S ASSOCIATION RESEARCH FELLOWSHIP (AARF) PROGRAM

i. Competition objectives

The Alzheimer's Association Research Fellowship award is intended to support exceptional researchers who are engaged in their post-graduate work (i.e. postdoctoral fellows) and before they have their first independent faculty positions (i.e. Assistant

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

Professor) and working in diverse areas of research, including basic, translational, clinical, functional and social-behavioral research. Investigators doing clinically-focused research without clinical practice are encouraged to apply to this AARF program.

Individuals applying to the program will be accepted from postdoctoral fellows, research scientists, instructors, project scientists, with full time positions at their respective institution who have **less than 10 years** of research experience after receipt of their doctorate or other terminal degree. **Individuals who have a position of an Assistant Professor or above are not eligible.**

The Alzheimer's Association feels strongly that the mentoring and involvement of researchers from diverse backgrounds and perspectives is essential to engaging cutting edge ideas and thinking in addressing scientific gaps for Alzheimer's and all other dementias.

The mechanism of the award is the individual research grant. The maximum allowable duration is three years (minimum 2 years).

ii. Funding and award period

Each Fellowship award is limited to **\$200,000**. Component parts of the award include:

- A total of **\$180,000** (including direct and indirect costs) will be awarded for costs related to the proposed research for up to three years (**Award should be a minimum 2 years. For a 2 year award the total is limited to \$140,000 with direct and indirect costs**). **Requests in any given year may not exceed \$70,000 (direct and indirect costs)**. Indirect costs are capped at 10 percent of total direct costs and are inclusive of indirect costs for the implementing institution as well as any to subcontracts.
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year.** If you request the full **\$12,500** towards just two years of travel and are requesting a three year award you will not be able to request travel funds for one of those years. **Total travel cost should not exceed \$12,500 for the duration of the award and must include attendance to the annual Alzheimer's Association International Conference (AAIC).**

NOTE: A PORTION MUST BE ALLOCATED TO SUPPORT REGISTRATION AND TRAVEL TO THE ANNUAL ALZHEIMER'S ASSOCIATION INTERNATIONAL CONFERENCE (AAIC), AS AAIC ATTENDANCE IS A CONDITION OF THE AWARD

- The remaining funds are two \$10,000 research stipends (\$10,000 to the applicant and \$10,000 to the primary mentor), which are not guaranteed and are awarded only upon successful completion of the award. Successful completion of the award includes, but is not limited to, successfully achieving

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

project aims and accomplishing all of the Fellowship benchmarks. These research stipends are to be applied to sustaining ongoing research in the Alzheimer's field, as well as professional development of the Fellow and Mentor, including but not limited to training fees, membership fees, open access publication fees and will be paid to the applicant's and mentor's respective institutions at the time of release. No additional financial reporting is required for these funds.

The Principal Investigator must commit to a 50% research effort each funding year. Note this is minimum time committed to research; and not necessary time to this project or equivalent to salary % allocated.

iii. Eligibility

- Applications will be accepted from postdoctoral fellows (or an equivalent level position) with full-time positions at their respective academic institution **and less than 10 years** of research experience after receipt of their doctorate (Ph.D) or terminal degree.
- If the applicant is promoted to faculty during the application process, the applicant may continue to proceed with the AARF program
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

iv. Ineligibility

- Individuals who have a position of an **Assistant Professorship or above are not eligible.**
- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria, which are applicable to both Applicant/Fellow and the Mentor

v. Deadlines and Award Dates

- **Letter of Intent deadline: February 27, 2025 5:00 PM EST**
Each Fellowship LOI is evaluated with attention to:
 - Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- o Alignment with the research priorities of the Alzheimer's Association
- o Impact of project on Alzheimer's and related dementia research
- o Evidence of methodological rigor that address the research question(s) being proposed

- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

- **Application deadline: May 1, 2025 5:00 PM EST**

If invited to submit a full application, each Fellowship application is evaluated on:

- o Quality and nature of the training to be provided and the institutional, departmental, and mentor-specific training environment, this includes available resources to support the applicant in their training **(30 %)**
- o Quality and emphasis of applicant and originality of the research plan **(40 %)**
- o Significance of the question being studied, quality of the work plan and the impact-risk of the proposal, impact on advancement of diverse science **(30 %)**
- o Resubmissions will have the opportunity to provide a response to prior review.

- **Award notifications: Prior to August 30, 2025**

vi. Mentoring plans and Fellowship Benchmarks

Each Fellowship award must identify a primary mentor. The mentor should be experienced in conducting Alzheimer's and dementia research and in mentoring junior investigators. The application must include a 2-3 page statement from the selected mentor that includes information on their research qualifications, experience as a research supervisor and commitment to the applicant. This statement will be a significant part of the application review. The application must also include information to describe the mentor's research support relevant to the applicant's research plan and the nature and extent of supervision and training that they will provide during the period of the award. **Only one primary mentor is allowed**; however, additional team members who might function as mentors can be listed as key personnel.

NOTE: THE PRIMARY MENTOR MUST AGREE TO PROVIDE ANNUAL EVALUATIONS OF THE APPLICANT'S PROGRESS FOR THE DURATION OF THE AWARD, AS REQUIRED FOR THE YEARLY PROGRESS REPORT.

Mentors can be early-career researchers and/or mid-career scientists who choose to shift into Alzheimer's and all dementia research. The applicant and proposed mentor must specify a mechanism for ensuring effective mentoring. The application should contain a plan for and an evaluation strategy of the mentoring process for enhancing diversity in the professional research workforce. A successful plan will include specific details on the mentoring goals designed towards achievements both related to research and other

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

professional development.

Additionally, a successful mentorship plan should include the following Fellowship Benchmarks, which are required to receive the research stipends, but should not be limited to only these:

Fellowship Benchmarks

- Attend at least on one Association-sponsored networking event at the Alzheimer's Association's International Conference (AAIC) **REQUIRED**
- Acceptance of an abstract at AAIC **REQUIRED**
- Mandatory documentation of hours spent on face-to-face mentoring **REQUIRED**
- Citation of specific exercises of mentorship such as supervision of manuscript writing and submission or grant writing and submission **REQUIRED**
- Reviewing grant applications. This is not limited to the Alzheimer's Association review process, as reviewing for other funding organizations, but supervised reviews are encouraged for those with little to no review experience. The Alzheimer's Association staff will provide additional resources for those new to reviewing for the Association **REQUIRED**
- Documentation of specific instances of the facilitation of networking, including introductions to colleagues, inclusion in discussions at scientific meetings, etc... **REQUIRED**
- Submission of funding proposal(s) to other funding agencies, including Alzheimer's Association, National Institutes of Health or National Science Foundation, Medical Research Council (UK), Canadian Institutes of Health Research, etc. **REQUIRED**

vii. Budget

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

It is required that most of the funds awarded under this program be used for direct research support. **No more than 10% of the total direct costs may be included as indirect costs; this is inclusive of indirect costs for the implementing institution as well as any to subcontracts.** Allowable costs include:

- Purchase and care of laboratory animals
- Small pieces of laboratory equipment and laboratory supplies
- ***Purchases over \$10,000 require prior approval, even if included in the project proposal budget***
- Computer software if used strictly for data collection (***requires prior approval***)

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Salary for the principal investigator, scientific (including postdoctoral fellows) and technical staff (including laboratory technicians and administrative support directly related to the funded grant); there is no salary cap
- Membership to scientific association
- Professional development / communication training
- Training costs to visit and perform research related to the awarded project on another laboratory/facility (this is not to be included in the travel costs)
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year and must include attendance to the annual Alzheimer’s Association International Conference (AAIC).**
- **Participant travel expenses for projects involving human participants is not included in the travel and is allowable expenses that can be captured under other expenses (itemized) in the budget.**
- **As part of Alzheimer’s Association ongoing efforts to develop programs that support family-friendly research environments, Alzheimer’s Association awardees can request up to \$2,500 per budget period for childcare costs provided by a licensed childcare provider.**

b. Direct Costs not allowed under this award include:

- Computer hardware or standard software (e.g. Microsoft Office, mouse monitor, computer parts, AppleCare)
- Laboratory equipment such as freezers, ultracentrifuges, RT-PCR, Microscopy/imaging equipment
- Service contract fees of equipment
- Construction or renovation costs
- Tuition
- Rent for laboratory/office space
- Visa costs and fees
- Expenses such as Data Network Recharges and Computing and communication device support services. However, data sharing and/or data storage for imaging, sequencing and other study data is allowed
- General liability insurances, such as GAEL
- Wire and currency exchange fees
- Institutional overheads associated with staff time
- The Alzheimer’s Association [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council members](#) and current employees of the Alzheimer’s Association are allowed to be key personnel or collaborators on projects, however they are NOT ALLOWED to receive any salary or compensation. A complete list of MSAG and IRGP Council members can be found on our website alz.org/grants
- We reserve the right to decline any charge that is an institutional feed and/or

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer’s Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

service charge.

viii. Reporting Requirements

Please see **Section III, J: Reporting Requirements** for additional reporting details. This award requires:

- Annual scientific progress reports
- Annual Mentor evaluations (including tracking progress towards Fellowship benchmarks)
- Annual financial reports
- Annual reports on recruitment & retention efforts (if applicable)
-

NOTE: THE CONTINUATION OF THE GRANT OVER THE AWARDED DURATION IS CONTINGENT UPON THE TIMELY RECEIPT OF ALL REQUIRED REPORTS.

ix. Additional information

Due to the nature of this grant being awarded to the Fellow, in large part to their uniquely tailored mentoring plan towards achieving specific professional goals, it is expected that the Fellowship will transfer with the Fellow to their future institution. Additionally, any potential change in Mentor role must be approved by the Association. This will be strictly adhered to and only in extreme circumstances will an exception be considered.

x. Contact Information

For any inquiries or additional information, please contact a member of the Alzheimer's Association Grants staff at grantsapp@alz.org.

F. ALZHEIMER'S ASSOCIATION RESEARCH FELLOWSHIP TO PROMOTE DIVERSITY (AARF-D) PROGRAM

i. Competition objectives

The Alzheimer's Association Research Fellowship to Promote Diversity (AARF-D) award is intended to support exceptional scientists from underrepresented groups who are working in Alzheimer's or related dementia research and who are engaged in their post-graduate work (i.e. postdoctoral fellows) and before their first independent faculty positions (i.e. Assistant Professor) and working in diverse areas of research, including basic, translational, clinical, functional and social-behavioral research. Investigators doing clinically-focused research without clinical practice are encouraged to apply to this AARF-D program.

Individuals applying to the program will be accepted from postdoctoral fellows, research scientists, instructors, project scientists, with full time positions at their respective institution who have **less than 10 years** of research experience after receipt of their doctorate or other terminal degree. **Individuals who have a position of an Assistant Professorship or above are not eligible.**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

The objective of this award is to increase the number of highly trained investigators from diverse backgrounds whose basic, clinical and social/behavioral research interests are grounded in the advanced methods and experimental approaches needed to solve problems related to Alzheimer's and related dementia in general and in health disparities populations. The Alzheimer's Association recognizes the need to increase the number of scientists from underrepresented groups participating in biomedical and behavioral research. The Association anticipates that by providing these research opportunities, the number of scientists from underrepresented groups entering and remaining in biomedical research careers in Alzheimer's and related dementia will increase.

The Alzheimer's Association feels strongly that the mentoring and involvement of researchers from diverse backgrounds and perspectives is essential to engaging cutting edge ideas and thinking in addressing scientific gaps for Alzheimer's and related dementia.

The mechanism of the award is the individual research grant. The maximum allowable duration is three years (minimum 2 years).

ii. Funding and award period

Each AARF-D award is limited to **\$200,000**. Component parts of the award include:

- A total of **\$180,000** (including direct and indirect costs) will be awarded for costs related to the proposed research for up to three years (**Award should be a minimum 2 years. For a 2 year award the total is limited to \$140,000 with direct and indirect costs**). **Requests in any given year may not exceed \$70,000 (direct and indirect costs)**. Indirect costs are capped at 10 percent of total direct costs and are inclusive of indirect costs for the implementing institution as well as any to subcontracts.
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year.** If you request the full \$12,500 towards just two years of travel and are requesting a three year award you will not be able to request travel funds for one of those years. **Total travel cost should not exceed \$12,500 for the duration of the award and must include attendance to the annual Alzheimer's Association International Conference (AAIC).**

NOTE: A PORTION MUST BE ALLOCATED TO SUPPORT REGISTRATION AND TRAVEL TO THE ANNUAL ALZHEIMER'S ASSOCIATION INTERNATIONAL CONFERENCE (AAIC), AS AAIC ATTENDANCE IS A CONDITION OF THE AWARD

- The remaining funds are two \$10,000 research stipends (\$10,000 to the applicant and \$10,000 to the primary mentor), which are not guaranteed and are awarded only upon successful completion of the award. Successful

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

completion of the award includes, but is not limited to, successfully achieving project aims and accomplishing all of the Fellowship benchmarks. These research stipends are to be applied to sustaining ongoing research in the Alzheimer's field, as well as professional development of the Fellow and Mentor, including but not limited to training fees, membership fees, publication fees and will be paid to the applicant's and mentor's respective institutions at the time of release. No financial reporting is required for these funds.

The Principal Investigator must commit to a 50% research effort each funding year. Note this is minimum time committed to research; and not necessary time to this project or equivalent to salary % allocated.

iii. Eligibility

- Applications will be accepted from postdoctoral fellows (or an equivalent level position) with full-time positions at their respective academic institution **and less than 10 years** of research experience after receipt of their doctorate (Ph.D) or terminal degree.
- If the applicant is promoted to faculty during the application process, the applicant may continue to proceed with the AARF-D program
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

Specific for the AARF-D program, eligible applicants have the same requirements as the AARF program, but are an underrepresented faculty in biomedical and behavioral research on a national, international or institutional basis.

Applicants must submit a **Diversity Self Statement (1 paragraph max)** during the letter of intent stage outlining the applicant's status and eligibility for this program. Additional details regarding what may be defined as underrepresented include:

- Applicants from the United States will be subject to the definitions as stated by the National Institutes of Health: NIH-designated U.S. health disparity populations include Blacks/ African Americans, Hispanics/ Latinos (for the Alzheimer's Association this does NOT include individuals from Spain; being from Spain alone does not make you eligible for this program), American Indians/ Alaska Natives, Asian Americans, Native Hawaiians and other Pacific Islanders, socioeconomically disadvantaged populations,

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

underserved rural populations, persons with disabilities (defined by the Americans with Disabilities Act (ADA) as a person with a physical or mental impairment that substantially limits one or more major life activities), minoritized sexual and gender populations, and Individuals from [economically developing nations of Africa, Asia and Latin America and the Caribbean](#).

- Applicants born in any of the economically developing nations of Africa, Asia, Latin America and the Caribbean are eligible granted that all other criteria regarding career stage are met. The Alzheimer's Association will not require proof of American citizenship or a Permanent Resident Status.
- Applicants employed by a university that is located in an economically developing nation of Africa, Asia and Latin America, are eligible granted that all other criteria regarding career stage are met.

ANY QUESTIONS RELATED TO ELIGIBILITY, PLEASE CONTACT THE ALZHEIMER'S ASSOCIATION AT GRANTSAPP@ALZ.ORG PRIOR TO SUBMITTING AN LOI. NO EXCEPTIONS WILL BE MADE AFTER THE LOI DEADLINE HAS PASSED. The Alzheimer's Association reserves the right to require additional documentation if necessary.

The self-statement will be validated by the Alzheimer's Association and removed from the LOI. The self-statement will not be included in the information shared with reviewers and will only be used by Alzheimer's Association staff to confirm eligibility to this program.

iv. Ineligibility

- Individuals who have a position of an **Assistant Professorship or above are not eligible.**
- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria, which are applicable to both Applicant/Fellow and the Mentor

v. Deadlines and Award Dates

Letter of Intent deadline: **February 27, 2025 5:00 PM EST**

Each AARF LOI is evaluated with attention to:

- o Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)
 - o Alignment with the research priorities of the Alzheimer's Association
 - o Impact of project on Alzheimer's and all other dementia research
 - o Evidence of methodological rigor that address the research question(s) being proposed
- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- **Application deadline: May 1, 2025 5:00 PM EST**

If invited to submit a full application, each AARF application is evaluated on:

- Quality and nature of the training to be provided and the institutional, departmental, and mentor-specific training environment, this includes available resources to support the applicant in their training **(30 %)**
- Quality and emphasis of applicant and originality of the research plan **(40 %)**
- Significance of the question being studied, quality of the work plan and the impact-risk of the proposal, impact on the advancement of diverse science **(30 %)**
- Resubmissions will have the opportunity to provide a response to prior review

- **Award notifications: Prior to August 30, 2025**

vi. Mentoring plans and Fellowship Benchmarks

Each Fellowship award must identify a primary mentor. The mentor should be experienced in conducting Alzheimer's and dementia research and in mentoring junior investigators. The application must include a 2-3 page statement from the selected mentor that includes information on their research qualifications, experience as a research supervisor and commitment to the applicant. This statement will be a significant part of the application review. The application must also include information to describe the mentor's research support relevant to the applicant's research plan and the nature and extent of supervision and training that he/she will provide during the period of the award. **Only one primary mentor is allowed; however, additional team members who might function as mentors can be listed as key personnel.**

NOTE: THE PRIMARY MENTOR MUST AGREE TO PROVIDE ANNUAL EVALUATIONS OF THE APPLICANT'S PROGRESS FOR THE DURATION OF THE AWARD, AS REQUIRED FOR THE YEARLY PROGRESS REPORT.

Mentors can be early-career researchers and/or mid-career scientists who choose to shift into Alzheimer's and all dementia research. The applicant and proposed mentor must specify a mechanism for ensuring effective mentoring. The application should contain a plan for and an evaluation strategy of the mentoring process for enhancing diversity in the professional research workforce. A successful plan will include specific details on the mentoring goals designed towards achievements both related to research and other professional development.

Additionally, a successful mentorship plan should include the following Fellowship Benchmarks, which are required to receive the research stipends, but should not be limited to only these:

Fellowship Benchmarks

- Attend at least on one Association-sponsored networking event at the Alzheimer's

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Association's International Conference (AAIC) **REQUIRED**
- Acceptance of an abstract at AAIC **REQUIRED**
- Mandatory documentation of hours spent on face-to-face mentoring **REQUIRED**
- Citation of specific exercises of mentorship such as supervision of manuscript writing and submission or grant writing and submission **REQUIRED**
- Reviewing grant applications. This is not limited to the Alzheimer's Association review process, as reviewing for other funding organizations, but supervised reviews are encouraged for those with little to no review experience. The Alzheimer's Association staff will provide additional resources for those new to reviewing for the Association **REQUIRED**
- Documentation of specific instances of the facilitation of networking, including introductions to colleagues, inclusion in discussions at scientific meetings, etc... **REQUIRED**
- Submission of funding proposal(s) to other funding agencies, including Alzheimer's Association, National Institutes of Health or National Science Foundation, Medical Research Council (UK), Canadian Institutes of Health Research, etc. **REQUIRED**

vii. Budget

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

It is required that most of the funds awarded under this program be used for direct research support. **No more than 10% of the total direct costs may be included as indirect costs; this is inclusive of indirect costs for the implementing institution as well as any to subcontracts.** Allowable costs include:

- Purchase and care of laboratory animals
- Small pieces of laboratory equipment and laboratory supplies
- **Purchases over \$10,000 require prior approval, even if included in the project proposal budget**
- Computer software if used strictly for data collection (**requires prior approval**)
- Salary for the principal investigator, scientific (including postdoctoral fellows) and technical staff (including laboratory technicians and administrative support directly related to the funded grant); there is no salary cap
- Membership to scientific association
- Professional development / communication training
- Training costs to visit and perform research related to the awarded project on another laboratory/facility (this is not to be included in the travel costs)
- Support for **travel to scientific and professional meetings** and additional

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year and must include attendance to the annual Alzheimer’s Association International Conference**

- **Participant travel expenses for projects involving human participants is not included in the travel and is allowable expenses that can be captured under other expenses (itemized) in the budget.**
- **As part of Alzheimer’s Association ongoing efforts to develop programs that support family-friendly research environments, Alzheimer’s Association awardees can request up to \$2,500 per budget period for childcare costs provided by a licensed childcare provider**

b. Direct Costs not allowed under this award include:

- Computer hardware or standard software (e.g. Microsoft Office, mouse monitor, computer parts)
- Laboratory equipment such as freezers, ultracentrifuges, RT-PCR, Microscopy/imaging equipment
- Service contract fees of equipment
- Construction or renovation costs
- Tuition
- Rent for laboratory/office space
- Visa costs and fees
- Expenses such as Data Network Recharges and Computing and communication device support services. However, data sharing and/or data storage for imaging, sequencing and other study data is allowed
- General liability insurances, such as GAEL
- Wire and currency exchange fees
- Institutional overheads associated with staff time
- The Alzheimer’s Association [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council members](#) and current employees of the Alzheimer’s Association are allowed to be key personnel or collaborators on projects, however they are NOT ALLOWED to receive any salary or compensation. A complete list of MSAG and IRGP Council members can be found on our website alz.org/grants
- We reserve the right to decline any charge that is an institutional feed and/or service charge

viii. Reporting Requirements

Please see Section III, I: Reporting Requirements for additional details. This award requires:

- Annual scientific progress reports

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer’s Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Annual Mentor evaluations (including tracking progress towards Fellowship benchmarks)
- Annual financial reports
- Annual reports on recruitment & retention efforts (if applicable)

NOTE: THE CONTINUATION OF THE GRANT OVER THE AWARDED DURATION IS CONTINGENT UPON THE TIMELY RECEIPT OF ALL REQUIRED REPORTS.

ix. Additional information

Due to the nature of this grant being awarded to the Fellow, in large part to their uniquely tailored mentoring plan towards achieving specific professional goals, it is expected that the Fellowship will transfer with the Fellow to their future institution. Additionally, any potential change in Mentor role must be approved by the Association. This will be strictly adhered to and only in extreme circumstances will an exception be considered.

x. Contact Information

For any inquiries or additional information, please contact a member of the Alzheimer's Association Grants staff at grantsapp@alz.org.

G. ALZHEIMER'S ASSOCIATION CLINICIAN SCIENTIST FELLOWSHIP (AACSF) PROGRAM

i. Competition objectives

The Alzheimer's Association recognizes the need to support the training of clinician scientists in Alzheimer's and related dementia. For the purpose of this program, a clinician scientist is defined as an individual already trained, licensed and practicing in a clinical field that includes patient contact (e.g., neurology, psychiatry, geriatrics, psychology) or patient-related diagnostic studies (e.g., neuropathology and radiology).

Applicants who are within **15 years** of receiving their M.D., D.O. or Ph.D. (or equivalent) and have licensure for clinical practice, including postdoctoral fellows through Assistant Professors, are eligible. **Positions higher than Assistant Professor will not be considered.**

The areas of research that the clinician scientist proposes for funding are not limited to patient-oriented, human subject research, but may also include translational research specifically designed to develop treatments or enhance diagnosis of neurological disease. These translational areas of research include epidemiologic or behavioral studies, clinical trials, studies of disease mechanisms, mapping disease features or spread the development of new technologies, and health services and outcomes research. Disease related basic science studies not directly involving humans or human

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

tissue are also encouraged if the primary goal is the development of therapies, diagnostic tests, or other tools to prevent or mitigate neurological diseases.

The Alzheimer's Association feels strongly that the mentoring and involvement of researchers from diverse backgrounds and perspectives is essential to engaging cutting edge ideas and thinking in addressing scientific gaps for Alzheimer's and related dementia.

The mechanism of the award is the individual research grant. The maximum allowable duration is three years (minimum 2 years).

ii. Funding and award period

Each AACSF-D award is limited to **\$250,000**. Component parts of the award include:

- A total of **\$230,000** (including direct and indirect costs) will be awarded for costs related to the proposed research for up to three years (**Award should be a minimum 2 years. For a 2 year award the total is limited to \$200,000 with direct and indirect costs**). **Requests in any given year may not exceed \$100,000 (direct and indirect costs)**. Indirect costs are capped at 10 percent of total direct costs and are inclusive of indirect costs for the implementing institution as well as any to subcontracts.
- **A total of \$12,500 over a three-year period may be requested for travel purposes and is not to exceed \$7,000 in any given year.** If you request the full \$12,500 towards just two years of travel and are requesting a three year award you will not be able to request travel funds for one of those years.

NOTE: A PORTION MUST BE ALLOCATED TO SUPPORT REGISTRATION AND TRAVEL TO THE ANNUAL ALZHEIMER'S ASSOCIATION INTERNATIONAL CONFERENCE (AAIC), AS AAIC ATTENDANCE IS A CONDITION OF THE AWARD

- The remaining funds are two \$10,000 research stipends (\$10,000 to the applicant and \$10,000 to the primary mentor), which are not guaranteed and are awarded only upon successful completion of the award. Successful completion of the award includes, but is not limited to, successfully achieving project aims and accomplishing all of the Fellowship benchmarks. These research stipends are to be applied to sustaining ongoing research in the Alzheimer's field, as well as professional development of the Fellow and Mentor, including but not limited to training fees, membership fees, open access publication fees and will be paid to the applicant's and mentor's respective institutions at the time of release. No additional financial reporting is required for these funds.

The Principal Investigator must commit up to an average of 2 protected days per week (40%) of research effort during each funding year.

iii. Eligibility

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

Applicants must be clinicians (clinical fellows, postdoctoral fellows through assistant professors; or equivalent positions) interested in an academic career who have:

- Full-time positions
- Less than **15 years** of research experience after receipt of their terminal degree (Ph.D, MD/DO or Residency) **and**
- Licensure for clinical practice and evaluate patients
- The Alzheimer's Association will make exceptions to the terminal degree requirement when the individual applicant has a full-time faculty position of Assistant Professor (or equivalent) or Associate Professor and is expert in the area of public health, social work, neuropsychology, legal, bioethics or a related area of psychosocial research
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

iv. Ineligibility

- Individuals who have a position **above Assistant Professorship are not eligible.**
- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria, which are applicable to both Applicant/Fellow and the Mentor

v. Deadlines and Award Dates

Letter of Intent deadline: February 27, 2025 5:00 PM EST

Each Fellowship LOI is evaluated with attention to:

- Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)
 - Alignment with the research priorities of the Alzheimer's Association
 - Impact of project on Alzheimer's and all related dementia research
 - Evidence of methodological rigor that address the research question(s) being proposed
- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- **Application deadline: May 1, 2025 5:00 PM EST**

If invited to submit a full application, each Fellowship application is evaluated on:

- Applicant's ability and promise as a clinician scientist based on prior record of achievement and career plan, letters of support, and CV (**30 %**)
- Quality and emphasis of applicant and originality of the research plan (**40 %**)
- Significance of the question being studied, quality of the work plan and the impact-risk of the proposal, impact on advancement of diverse science (**30 %**)
- Resubmissions will have the opportunity to provide a response to prior review

- **Award notifications: Prior to August 30, 2025**

vi. Mentoring plans and Fellowship Benchmarks

Each Fellowship award must identify a primary mentor. The mentor should be experienced in conducting Alzheimer's and dementia research and in mentoring junior investigators. The application must include a 2-3 page statement from the selected mentor that includes information on their research qualifications, experience as a research supervisor and commitment to the applicant. This statement will be a significant part of the application review. **The application must also include information to describe the mentor's research support relevant to the applicant's research plan and the nature and extent of supervision and training that he/she will provide during the period of the award. Only one primary mentor is allowed; however, additional team members who might function as mentors can be listed as key personnel.**

NOTE: THE PRIMARY MENTOR MUST AGREE TO PROVIDE ANNUAL EVALUATIONS OF THE APPLICANT'S PROGRESS FOR THE DURATION OF THE AWARD, AS REQUIRED FOR THE YEARLY PROGRESS REPORT.

Mentors can be early-career researchers and/or mid-career scientists who choose to shift into Alzheimer's and related dementia research. The applicant and proposed mentor must specify a mechanism for ensuring effective mentoring. The application should contain a plan for and an evaluation strategy of the mentoring process for enhancing diversity in the professional research workforce. A successful plan will include specific details on the mentoring goals designed towards achievements both related to research and other professional development.

Additionally, a successful mentorship plan should include the following Fellowship Benchmarks, which are required to receive the research stipends, but should not be limited to only these:

Fellowship Benchmarks

- Attend at least on one Association-sponsored networking event at the Alzheimer's Association's International Conference (AAIC) **REQUIRED**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Acceptance of an abstract at AAIC **REQUIRED**
- Mandatory documentation of hours spent on face-to-face mentoring **REQUIRED**
- Citation of specific exercises of mentorship such as supervision of manuscript writing and submission or grant writing and submission **REQUIRED**
- Reviewing grant applications. This is not limited to the Alzheimer's Association review process, as reviewing for other funding organizations, but supervised reviews are encouraged for those with little to no review experience. The Alzheimer's Association staff will provide additional resources for those new to reviewing for the Association **REQUIRED**
- Documentation of specific instances of the facilitation of networking, including introductions to colleagues, inclusion in discussions at scientific meetings, etc... **REQUIRED**
- Submission of funding proposal(s) to other funding agencies, including Alzheimer's Association, National Institutes of Health or National Science Foundation, Medical Research Council (UK), Canadian Institutes of Health Research, etc. **REQUIRED**

vii. Budget

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

It is required that most of the funds awarded under this program be used for direct research support. **No more than 10% of the total direct costs may be included as indirect costs; this is inclusive of indirect costs for the implementing institution as well as any to subcontracts.** Allowable costs include:

- Purchase and care of laboratory animals
- Small pieces of laboratory equipment and laboratory supplies
- ***Purchases over \$10,000 require prior approval, even if included in the project proposal budget***
- Computer software if used strictly for data collection (***requires prior approval***)
- Salary for the principal investigator, scientific (including postdoctoral fellows) and technical staff (including laboratory technicians and administrative support directly related to the funded grant); there is no salary cap
- Membership to scientific association
- Professional development / communication training
- Training costs to visit and perform research related to the awarded project on another laboratory/facility (this is not to be included in the travel costs)
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may include site visits. **A total of \$12,500 over a three year period may be**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

requested for travel purposes and is not to exceed \$7,000 in any given year and must include attendance to the annual Alzheimer's Association International Conference (AAIC)

- Participant travel expenses for projects involving human participants is not included in the travel and is allowable expenses that can be captured under other expenses (itemized) in the budget.
- As part of Alzheimer's Association ongoing efforts to develop programs that support family-friendly research environments, Alzheimer's Association awardees can request up to \$2,500 per budget period for childcare costs provided by a licensed childcare provider

b. Direct Costs not allowed under this award include:

- Computer hardware or standard software (e.g. Microsoft Office, mouse monitor, computer parts, AppleCare)
- Laboratory equipment such as freezers, ultracentrifuges, RT-PCR, Microscopy/imaging equipment
- Service contract fees of equipment
- Construction or renovation costs
- Tuition
- Rent for laboratory/office space
- Visa costs and fees
- Expenses such as Data Network Recharges and Computing and communication device support services. However, data sharing and/or data storage for imaging, sequencing and other study data is allowed
- General liability insurances, such as GAEL
- Wire and currency exchange fees
- Institutional overheads associated with staff time
- The Alzheimer's Association [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council members](#) and current employees of the Alzheimer's Association are allowed to be key personnel or collaborators on projects, however they are NOT ALLOWED to receive any salary or compensation. A complete list of MSAG and IRGP Council members can be found on our website [alz.org/grants](#)
- We reserve the right to decline any charge that is an institutional feed and/or service charge

viii. Reporting Requirements

Please see **Section III, J: Reporting Requirements** for additional reporting details. This award requires:

- Annual scientific progress reports
- Annual Mentor evaluations (including tracking progress towards Fellowship benchmarks)
- Annual financial reports
- Annual reports on recruitment & retention efforts (if applicable)

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website ([alz.org/grants](#)) and on proposalCENTRAL under Grant Opportunities ([proposalCENTRAL.com](#))

NOTE: THE CONTINUATION OF THE GRANT OVER THE AWARDED DURATION IS CONTINGENT UPON THE TIMELY RECEIPT OF ALL REQUIRED REPORTS.

ix. Additional information

Due to the nature of this grant being awarded to the Fellow, in large part to their uniquely tailored mentoring plan towards achieving specific professional goals, it is expected that the Fellowship will transfer with the Fellow to their future institution. This will be strictly adhered to and only in extreme circumstances will an exception be considered.

The Alzheimer's Association is pleased to partner with the Fred A. and Barbara M. Erb Family Foundation on this program. Based on the review process, one AACSF/AACSF-D awardee each cycle will be identified as the Alzheimer's Association Fred A. Erb Clinical Research Science Fellowship. This Alzheimer's Association Fred and Barbara Erb Clinical Research Science Fellowship will include a small amount of additional funding over the course of the grant as well.

x. Contact Information

H. ALZHEIMER'S ASSOCIATION CLINICIAN SCIENTIST FELLOWSHIP TO PROMOTE DIVERSITY (AACSF-D) PROGRAM

i. Competition objectives

The Alzheimer's Association recognizes the need to support exceptional clinician scientists who are currently underrepresented at academic institutions in clinical research training in Alzheimer's and related dementia. For the purpose of this program, a clinician scientist is defined as an individual already trained, licensed and practicing in a clinical field that includes patient contact (e.g., neurology, psychiatry, geriatrics, psychology) or patient-related diagnostic studies (e.g., neuropathology and radiology).

Applicants who are within **15 years** of receiving their M.D., D.O. or Ph.D. (or equivalent) and have licensure for clinical practice, including postdoctoral fellows through Assistant Professors, are eligible. **Positions higher than Assistant Professor will not be considered.**

The areas of research that the clinician scientist proposes for funding are not limited to patient-oriented, human subject research, but may also include translational research specifically designed to develop treatments or enhance diagnosis of neurological disease. These translational areas of research include epidemiologic or behavioral studies, clinical trials, studies of disease mechanisms, the development of new

technologies, and health services and outcomes research. Disease related basic science studies not directly involving humans or human tissue are also encouraged if the primary goal is the development of therapies, diagnostic tests, or other tools to prevent or mitigate neurological diseases.

The Alzheimer's Association recognizes the need to increase the number of underrepresented clinicians participating in clinical research. The Association anticipates that by providing this funding opportunity, the number of underrepresented physicians entering and remaining in clinical careers in Alzheimer's and related dementia will increase

The mechanism of the award is the individual research grant. The maximum allowable duration is three years (minimum 2 years).

ii. Funding and award period

Each AACSF-D award is limited to **\$250,000**. Component parts of the award include:

- A total of **\$230,000** (including direct and indirect costs) will be awarded for costs related to the proposed research for up to three years (**Award should be a minimum 2 years. For a 2 year award the total is limited to \$200,000 with direct and indirect costs**). **Requests in any given year may not exceed \$100,000 (direct and indirect costs)**. Indirect costs are capped at 10 percent of total direct costs and are inclusive of indirect costs for the implementing institution as well as any to subcontracts.
- **A total of \$12,500 over a three-year period may be requested for travel purposes and is not to exceed \$7,000 in any given year.** If you request the full \$12,500 towards just two years of travel and are requesting a three year award you will not be able to request travel funds for one of those years.

NOTE: A PORTION MUST BE ALLOCATED TO SUPPORT REGISTRATION AND TRAVEL TO THE ANNUAL ALZHEIMER'S ASSOCIATION INTERNATIONAL CONFERENCE (AAIC), AS AAIC ATTENDANCE IS A CONDITION OF THE AWARD

- The remaining funds are two \$10,000 research stipends (\$10,000 to the applicant and \$10,000 to the primary mentor), which are not guaranteed and are awarded only upon successful completion of the award. Successful completion of the award includes, but is not limited to, successfully achieving project aims and accomplishing all of the Fellowship benchmarks. These research stipends are to be applied to sustaining ongoing research in the Alzheimer's field, as well as professional development of the Fellow and Mentor, including but not limited to training fees, membership fees, publication fees and will be paid to the applicant's and mentor's respective institutions at the time of release. No financial reporting is required for these funds.

The Principal Investigator must commit up to an average of 2 protected days per week (40%) research effort during each funding year.

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

iii. Eligibility

Applicants must be clinicians (clinical fellows, postdoctoral fellows through assistant professors; or equivalent positions) interested in an academic career who have:

- Full-time positions
- Less than **15 years** of research experience after receipt of their terminal degree **and**
- Licensure for clinical practice and evaluate patients
- The Alzheimer's Association will make exceptions to the terminal degree requirement when the individual applicant has a full-time faculty position of Assistant Professor (or equivalent) or Associate Professor and is expert in the area of public health, social work, neuropsychology, legal, bioethics or a related area of psychosocial research
- Alzheimer's Association grants are generally open to scientists and researchers across the globe; however, as a U.S.-based charity, the Alzheimer's Association is subject to, and complies with, U.S. law. As a result, the Alzheimer's Association cannot award, and will not award, grants in violation of applicable U.S. statutes and regulations. This means, among other things, that the Alzheimer's Association cannot, and will not, fund any individual or entity (i) that is subject to U.S. comprehensive or targeted sanctions or if awarding funding would result in a violation of such sanctions, (ii) that is on the U.S. List of Specially Designated Nationals or entities owned or controlled by such persons, or (iii) when doing so is otherwise prohibited by U.S. laws related to combating terrorism.

Specific for the AACSF-D program, eligible applicants have the same requirements as the AACSF program, but are an underrepresented faculty in biomedical and behavioral research on a national, international or institutional basis.

Applicants must submit a **Diversity Self Statement (1 paragraph max)** during the letter of intent stage outlining the applicant's status and eligibility for this program. *This statement will only be accessible to the applicant and the Alzheimer's Association through their ProposalCentral Account (if the applicant gives others access to the LOI, they will be able to view all attachments).* Additional details regarding what may be defined as underrepresented include:

- Applicants from the United States will be subject to the definitions as stated by the National Institutes of Health: NIH-designated U.S. health disparity populations include Blacks/ African Americans, Hispanics/ Latinos (for the Alzheimer's Association this does NOT include individuals from Spain; being from Spain alone does not make you eligible for this program), American Indians/ Alaska Natives, Asian Americans, Native Hawaiians and other Pacific Islanders, socioeconomically disadvantaged populations, underserved rural populations, persons with disabilities (defined by the Americans with

Disabilities Act (ADA) as a person with a physical or mental impairment that substantially limits one or more major life activities), minoritized sexual and gender populations, and Individuals from [economically developing nations of Africa, Asia and Latin America and the Caribbean](#).

- Applicants born in any of the economically developing nations of Africa, Asia, Latin America and the Caribbean are eligible granted that all other criteria regarding career stage are met. The Alzheimer's Association will not require proof of American citizenship or a Permanent Resident Status.
- Applicants employed by a university that is located in an economically developing nation of Africa, Asia and Latin America, are eligible granted that all other criteria regarding career stage are met.

ANY QUESTIONS RELATED TO ELIGIBILITY, PLEASE CONTACT THE ALZHEIMER'S ASSOCIATION AT GRANTSAPP@ALZ.ORG PRIOR TO SUBMITTING AN LOI. NO EXCEPTIONS WILL BE MADE AFTER THE LOI DEADLINE HAS PASSED. The Alzheimer's Association reserves the right to require additional documentation if necessary.

The self-statement will be validated by the Alzheimer's Association and removed from the application. The self-statement will not be included in the information shared with reviewers and will only be used to confirm eligibility to this program.

iv. Ineligibility

- Individuals who have a position **above Assistant Professorship are not eligible.**
- Individuals currently enrolled as a student in a undergraduate, Master or Doctoral Program are not eligible, regardless of prior degree status
- Please refer to **Section III: B. Eligibility & Ineligibility** for additional ineligibility criteria, which are applicable to both Applicant/Fellow and the Mentor

v. Deadlines and Award Dates

Letter of Intent deadline: February 27, 2025 5:00 PM EST

Each Fellowship LOI is evaluated with attention to:

- o Demonstrable innovation/novelty of the proposed project (especially in the context of the PIs recently funded work)
 - o Alignment with the research priorities of the Alzheimer's Association
 - o Impact of project on Alzheimer's and all other dementia research
 - o Evidence of methodological rigor that address the research question(s) being proposed
- **Letter of Intent notifications: Week of March 31, 2025**

NOTE: DUE TO THE HIGH VOLUME OF SUBMISSIONS, SPECIFIC FEEDBACK AND REVIEWER COMMENTS ARE NOT PROVIDED AT THE LOI STAGE.

- **Application deadline: May 1, 2025 5:00 PM EST**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

If invited to submit a full application, each Fellowship application is evaluated on:

- o Applicant's ability and promise as a clinician scientist based on prior record of achievement and career plan, letters of support, and CV **(30 %)**
- o Quality and emphasis of applicant and originality of the research plan **(40 %)**
- o Significance of the question being studied, quality of the work plan and the impact-risk of the proposal, impact on advancement of diverse science **(30 %)**
- o Resubmissions will have the opportunity to provide a response to prior review

- **Award notifications: Prior to August 30, 2025**

vi. Mentoring plans and Fellowship Benchmarks

Each Fellowship award must identify a primary mentor. The mentor should be experienced in conducting Alzheimer's and related dementia research and in mentoring junior investigators. The application must include a 2-3 page statement from the selected mentor that includes information on their research qualifications, experience as a research supervisor and commitment to the applicant. This statement will be a significant part of the application review. **The application must also include information to describe the mentor's research support relevant to the applicant's research plan and the nature and extent of supervision and training that they will provide during the period of the award. Only one primary mentor is allowed;** however, additional team members who might function as mentors can be listed as key personnel.

NOTE: THE PRIMARY MENTOR MUST AGREE TO PROVIDE ANNUAL EVALUATIONS OF THE APPLICANT'S PROGRESS FOR THE DURATION OF THE AWARD, AS REQUIRED FOR THE YEARLY PROGRESS REPORT.

Mentors can be early-career researchers and/or mid-career scientists who choose to shift into Alzheimer's and all dementia research. The applicant and proposed mentor must specify a mechanism for ensuring effective mentoring. The application should contain a plan for and an evaluation strategy of the mentoring process for enhancing diversity in the professional research workforce. A successful plan will include specific details on the mentoring goals designed towards achievements both related to research and other professional development.

Additionally, a successful mentorship plan should include the following Fellowship Benchmarks, which are required to receive the research stipends, but should not be limited to only these:

Fellowship Benchmarks

- Attend at least on one Association-sponsored networking event at the Alzheimer's Association's International Conference (AAIC) **REQUIRED**
- Acceptance of an abstract at AAIC **REQUIRED**
- Mandatory documentation of hours spent on face-to-face mentoring **REQUIRED**

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Citation of specific exercises of mentorship such as supervision of manuscript writing and submission or grant writing and submission **REQUIRED**
- Reviewing grant applications. This is not limited to the Alzheimer's Association review process, as reviewing for other funding organization, but supervised reviews are encouraged for those with little to no review experience. The Alzheimer's Association staff will provide additional resources for those new to reviewing for the Association **REQUIRED**
- Documentation of specific instances of the facilitation of networking, including introductions to colleagues, inclusion in discussions at scientific meetings, etc... **REQUIRED**
- Submission of funding proposal(s) to other funding agencies, including Alzheimer's Association, National Institutes of Health or National Science Foundation, Medical Research Council (UK), Canadian Institutes of Health Research, etc. **REQUIRED**
- Submission of an application to the National Institute on Aging's Butler-Williams Scholars Program (formerly the Summer Institute on Aging Research) or submission to another training program. **OPTIONAL**

vii. Budget

A budget justification for the proposed research project is required and must be submitted with the application and within the allowable two-page limit. However, if the application is to be awarded, a more detailed budget will be required and must be approved before the disbursement of funds.

a. Allowable costs under this award:

It is required that most of the funds awarded under this program be used for direct research support. **No more than 10% of the total direct costs may be included as indirect costs; this is inclusive of indirect costs for the implementing institution as well as any to subcontracts.** Allowable costs include:

- Purchase and care of laboratory animals
- Small pieces of laboratory equipment and laboratory supplies
- ***Purchases over \$10,000 require prior approval, even if included in the project proposal budget***
- Computer software if used strictly for data collection (***requires prior approval***)
- Salary for the principal investigator, scientific (including postdoctoral fellows) and technical staff (including laboratory technicians and administrative support directly related to the funded grant); there is no salary cap
- Membership to scientific association
- Professional development / communication training
- Training costs to visit and perform research related to the awarded project on another laboratory/facility (this is not to be included in the travel costs)
- Support for **travel to scientific and professional meetings** and additional support for travel expenses necessary to carry out research planned – this may

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

include site visits. **A total of \$12,500 over a three year period may be requested for travel purposes and is not to exceed \$7,000 in any given year and must include attendance to the annual Alzheimer's Association International Conference (AAIC)**

- **Participant travel expenses for projects involving human participants is not included in the travel and is allowable expenses that can be captured under other expenses (itemized) in the budget.**
- **As part of Alzheimer's Association ongoing efforts to develop programs that support family-friendly research environments, Alzheimer's Association awardees can request up to \$2,500 per budget period for childcare costs provided by a licensed childcare provider**

b. Direct Costs not allowed under this award include:

- Computer hardware or standard software (e.g. Microsoft Office, mouse monitor, computer parts)
- Laboratory equipment such as freezers, ultracentrifuges, RT-PCR, Microscopy/imaging equipment
- Service contract fees of equipment
- Construction or renovation costs
- Tuition
- Rent for laboratory/office space
- Visa costs and fees
- Expenses such as Data Network Recharges and Computing and communication device support services. However, data sharing and/or data storage for imaging, sequencing and other study data is allowed
- General liability insurances, such as GAEL
- Wire and currency exchange fees
- Institutional overheads associated with staff time
- The Alzheimer's Association [Medical and Scientific Advisory Group \(MSAG\)](#), the [International Research Grant Program \(IRGP\) Council members](#) and current employees of the Alzheimer's Association are allowed to be key personnel or collaborators on projects, however they are NOT ALLOWED to receive any salary or compensation. A complete list of MSAG and IRGP Council members can be found on our website alz.org/grants
- We reserve the right to decline any charge that is an institutional feed and/or service charge

viii. Reporting Requirements

Please see **Section III, J: Reporting Requirements** for additional reporting details. This award requires:

- Annual scientific progress reports
- Annual Mentor evaluations (including tracking progress towards Fellowship benchmarks)
- Annual financial reports

Please send all inquiries to grantsapp@alz.org

This PA is posted on the Alzheimer's Association website (alz.org/grants) and on proposalCENTRAL under Grant Opportunities (proposalCENTRAL.com)

- Annual reports on recruitment & retention efforts (if applicable)

NOTE: THE CONTINUATION OF THE GRANT OVER THE AWARDED DURATION IS CONTINGENT UPON THE TIMELY RECEIPT OF ALL REQUIRED REPORTS.

ix. Additional information

Due to the nature of this grant being awarded to the Fellow, in large part to their uniquely tailored mentoring plan towards achieving specific professional goals, it is expected that the Fellowship will transfer with the Fellow to their future institution. This will be strictly adhered to and only in extreme circumstances will an exception be considered.

The Alzheimer's Association is pleased to partner with the Fred A. and Barbara M. Erb Family Foundation on this program. Based on the review process, one AACSF/AACSF-D awardee each cycle will be identified as the Alzheimer's Association Fred A. Erb and Barbara Erb Clinical Research Science Fellowship. This Alzheimer's Association Fred and Barbara Erb Clinical Research Science Fellowship will include a small amount of additional funding over the course of the grant as well.

x. Contact Information

For any inquiries or additional information, please contact a member of the Alzheimer's Association Grants staff at **grantsapp@alz.org**.
