

THE INTERSECTION OF IDD & ALZHEIMER'S

Diagnostic and Quality Care Summits

Individuals with Down syndrome have over a 90% lifetime risk of Alzheimer's disease. Help raise awareness in the Intellectual and Developmental Disabilities (IDD) communities by learning to:

- Identify signs
- Obtain an accurate diagnosis
- Manage symptoms
- Access resources

Join us for one of the hybrid-format events to engage with community members and experts, including Drs. Heather Snyder and Brian Chicoine. Additionally, hear insights from a family member and a IDD service provider.

HEATHER M. SNYDER, PH.D.
Senior Vice President
Medical & Scientific Operations
Alzheimer's Association

BRIAN CHICOINE, MD.
Medical Director
Advocate Medical Group Adult
Down Syndrome Center

Register for an upcoming summit in your area!
