

# SUBJECTIVE COGNITIVE DECLINE

## among African Americans

Data from the 2015 Behavioral Risk Factor Surveillance System

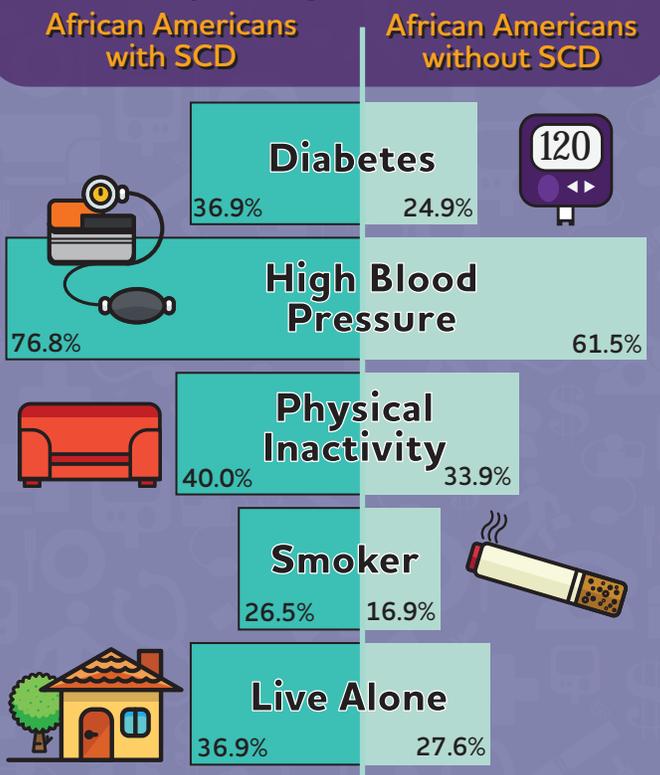

# 1 in 7

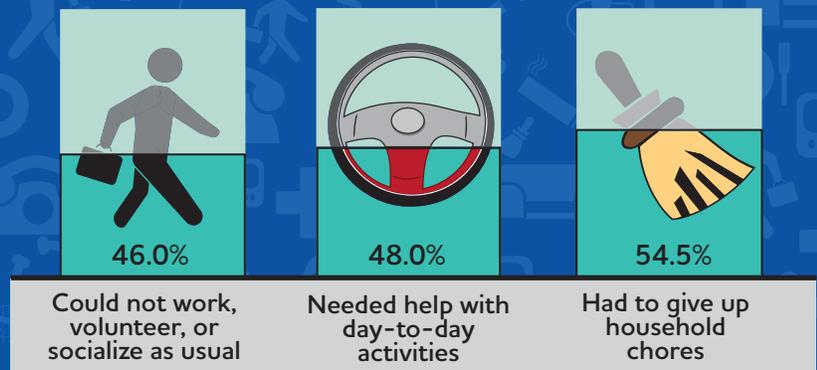

African Americans aged 45+ have **Subjective Cognitive Decline**.

**SCD** is self-reported **MEMORY PROBLEMS** that have gotten worse over the past year.

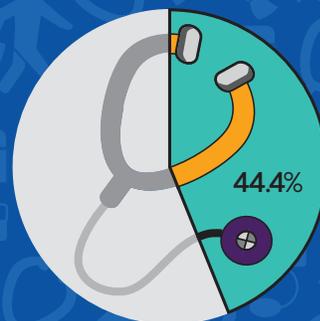

### African Americans with SCD often have other health challenges that may complicate care.

### SCD IMPACTS EVERYDAY LIFE.

### YET, LESS THAN HALF HAVE TALKED TO A DOCTOR ABOUT IT.

And, of those who have, **ONE in THREE** had trouble paying for medical care.
