

dementia caregiving in connecticut

DATA FROM THE 2016 BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM

In Connecticut, more than half of all adults providing unpaid care to loved ones with Alzheimer's or another dementia have been doing so for at least two years.

One-quarter of Alzheimer's and dementia caregivers provide 20 or more hours of care per week.

One in 4 dementia caregivers are in the "sandwich generation" – caring for both someone with dementia and a child or grandchild.

Percent of dementia caregivers providing care for at least 2 years
