

***NEW* Memories in the Making Art Program**

The Central Ohio Chapter is thrilled to offer a **free** social engagement opportunity for those affected by early stage Alzheimer's and related dementias and their loved ones too. This dementia friendly Art program will reference the nationally recognized Memories in the Making®. This program allows a person with memory loss to engage in productive interaction with others via the visual arts, music or writing projects. Memories in the Making is based on the premise that there are no mistakes in creative expression, and the process of creating art, music or writing is a powerful means of engaging individuals living with dementia. Our program provides art expression, reminiscing, and a safe place for the participants to express themselves especially when words may fail them.

These creative sessions are conducted by a trained art facilitator with assistance from chapter staff and volunteers. Please join us in producing some wonderful artwork while making some wonderful memories together!
