ALZHEIMER'S  ASSOCIATION[®]

Blondes vs. Brunettes Houston is driven by passionate, spirited community leaders coming together to support the mission of the Alzheimer's Association.

Blondes vs. Brunettes[®] was created in Houston in 2005, a flag football event founded by a group of professional women including Houstonians Kate Stukenberg and Meredith Riddle Chastang. Since the inaugural game in 2005, the event has grown to more than 40 cities, raising more than \$9 million and bringing thousands of new supporters to the cause. In 2014, to accommodate nationwide growth, "Blondes vs. Brunettes" grew into "RivALZ," empowering participants to choose the rivalry around which to organize their teams.

We invite everyone to join us on the football field to unite as one team in the fight against Alzheimer's. We play for our grandparents, parents and ourselves. We play because, unless we change the course of this disease, it will take a devastating toll on the families of future generations. Game day will come and go, but we will continue to fight Alzheimer's disease until we win.

As an event created and played by women, Blondes vs. Brunettes Houston sends a message of solidarity: we plan to meet this disease with energy and attitude. We are the generation that can provide both the fuel and the spark in this fight. We are Blondes vs. Brunettes and we are a team united to tackle Alzheimer's disease.

ALZHEIMER'S DISEASE IS A GLOBAL CRISIS WITH SIGNIFICANT LOCAL IMPACT.

WHY SUPPORT THE ALZHEIMER'S ASSOCIATION

Currently, more than 6 million Americans are living with Alzheimer's and 16 million individuals are serving as their unpaid caregivers. Right here in Texas, 400,000 families are facing this progressive disease, which is devastating our families, our finances and our future.

As the leading voluntary health organization in Alzheimer's care, support and research, the Alzheimer's Association® addresses this global crisis by providing education and support to the millions who face dementia every day, while advancing critical research toward methods of treatment, prevention and, ultimately, a cure.

WHY YOU SHOULD SPONSOR

Alzheimer's Disease is front and center in the media and public debate. Every 65 seconds someone in the U.S. develops Alzheimer's.

Each sponsor will receive significant recognition, building its image as a corporation that is concerned about the Houston Alzheimer's Community. This is important to your marketing efforts because:

- 78% of consumers would be more likely to buy a product or patronize a business associated with a cause they care about
- 66% would switch brands to support a cause they care about
- 84% believe that cause-related marketing creates a positive company image
